	Number of bedrooms:	2		Garage:	Yes
	Pool:	Yes		Plot:	—
	Air conditioning:	Yes		Television:	Yes
	Close to golf courses:	Yes		Wi-Fi:	Yes

Casares is one of the most charming white Andalusian towns, located between the Serrania de Ronda mountain range, the sea and Gibraltar.

The area is distinguished by its picturesque landscape, from the imposing Serrania hills of the Pico de los Reales to the vine-filled surrounding valleys.

Casares, which has been recognised as an historic and artistic site, is considered one of the most beautiful villages in Spain. Its history, according to tradition, dates back to Roman times.

The development has been designed to provide maximum comfort for its habitants. The innovative style blends harmoniously with the surrounding natural landscape. Thanks to the high position of the complex, the apartments will have stunning views of the sea and the mountains.

Spacious open-plan and functional living areas with large terraces from which you will be able to enjoy the splendid sea views. Furnished kitchens and equipped bathrooms. Good quality finishing materials will be used in the construction and innovative solutions such as an aerothermal system and the pre-installation of an electric car charging point.

The communal areas of the development will offer the opportunity to spend time relaxing in the outdoor swimming pool or enjoying a leisure walk in the spacious gardens. There will also be a children's playground inside the complex.

Not to forget its privileged location, just a few minutes' drive from the well-known Finca Cortesin golf club, and other surrounding golf courses such as Sotogrande, Estepona and Marbella, making this a particularly attractive location.

All flats have a garage and storage unit included in the price.

After the success of the first phase, the second phase of the project is now on sale!

The prices of available properties in phase II of the project:

- 2-bedroom – from 301.000 € to 420.000 €
- 3-bedroom – from 476.000 € to 530.000 €

If you are interested in this project do not hesitate to contact us for more details!
