This exclusive urbanization will be developed between Mijas and Fuengirola, the area becoming one of the most popular on the Costa del Sol.

Thanks to its elevated position, you can look out over the horizon of the beautiful Mediterranean Sea and enjoy the freedom of the fresh air and sunshine.

This exclusive enclave offers easy access to the beautiful beaches and a wide range of leisure and entertainment facilities, but it also has an excellent range of services available. You can find the Miramar shopping center, the largest commercial area in Fuengirola, just a short distance away. There you'll find everything you could wish for in terms of fashion, home, leisure, and restaurants.

All the apartments have been meticulously designed to offer a unique wellness experience. Open spaces create a beautiful, harmonious balance between the living room, dining room, kitchen, and terrace, ideal for entertaining guests or enjoying quality time with your loved ones. Floor to ceiling windows flood the interiors with natural light, letting in the sunshine and allowing you to enjoy your space to the fullest, creating a warm and welcoming atmosphere. The large-format porcelain tiling, underfloor heating, as well as the kitchens and bathrooms with top-of-the-range equipment are materials that stand out in the meticulous design of this development. Elegant design is characterized by clean, sleek lines and a focus on minimalism, and the materials used are carefully chosen to complement the whole.

Take in the beauty of the coastal scenery from the comfort of your own home, lounging on the couch with a glass of wine. You'll love the atmosphere and the community, and your new home will be the perfect place to call "home".

Make a refreshing dip in the swimming pool overlooking the warm waters of the sea and relax in the communal areas, or catch up with friends and family in the sunlit garden. You'll have access to a fully equipped gym, as well as exclusive spa facilities.

The gardens, designed by the Association of Friends of the Botanical Park of Malaga, have managed to not only recreate but also to captivate and sustain a sustainable environment. They have done this by ensuring that the complex is a beautifully landscaped oasis.

The residential area, meanwhile, stretches from the picturesque mountains to the vibrant sea, over a hilly and undulating landscape dotted with picturesque houses.

The picturesque Mijas village, with its distinctive Moorish appearance and winding streets, stretches up the mountain like a lookout point, offering a magnificent picture postcard image that is one of the most beautiful on the coast. The village is nestled in the pine forests, and its white houses contrast beautifully with the greenery of the surrounding landscape.

Enjoy a life that perfectly combines the tranquility of coastal living and the comfort of an exclusive community which offers privacy and tranquility you're looking for.

All apartments have a parking spot and a storage included in price. Ground floor units have a garden with a private plunge pool.
