This is a boutique residential development currently under construction in the Carvajal area of Fuengirola. The project is located in a quiet residential setting, oriented towards the sea and away from heavy tourist traffic.

The development comprises 42 apartments with 1, 2 and 3 bedrooms. The homes have been designed with functionality in mind, featuring a clear separation between living and private areas. Living spaces open directly onto terraces, encouraging everyday use of outdoor areas and providing good natural light throughout the interiors.

The offer includes apartments on lower floors as well as penthouse units with larger terraces. The variety of apartment types allows buyers to choose a layout that best suits their intended use and individual needs.

Communal areas within the development include outdoor and indoor swimming pools, a wellness area with sauna, a gym, coworking space and landscaped green areas. These shared facilities have been planned as a functional complement to the residential setting, intended for calm, everyday use and residents' comfort.

The beach, seafront promenade and a train station are located within a short distance, ensuring convenient access to transport links and services along the coast.

The project is suitable both for those planning to live permanently and for buyers looking for a property for everyday use by the sea.
